Mr. Cullom-If the banks of the country and the business of the country have been going in a legal and lawful way the information, instead of doing injury, will do good. Whatever may have been the course of the banks of New York, Boston and Philadelphia, there has not been up hour when, in the banks of Illinois and of the whole West, I believe especially of the great city of Chicago, a depositor could not draw his check and get the money for it. But I am not disposed to criticise the action of the New York bankers on the question of using clearing-house checks, because there might be a condition there which justified it; and yet I am inclined to believe that if those banks had gone on as the banks of Chicago and St. Louis did they would have been paying cash on their checks to-day. instead of paying out clearing-house cer-

GRESHAM EXPRESSED REGRET.

The Incident Growing Out of the Expulsion of Itslians in Colorado Probably Closed.

WASHINGTON, Aug. 23.-There has been considerable correspondence regarding the forcible expulsion of Italian miners from Cripple Creek, Col., between Secretary Gresham, Governor Waite and Baron Fava. the Italian minister at Washington, but it is likely that the explanation offered the minister by the State Department and Governor Waite will be satisfactory to the Italian government and that the incident, will be declared closed. The correspondsuce began with a note from Baron Fava to Secretary Gresham, complaining that Italian subjects working at Cripple Creek had been driven away by Americitizens and hinting that the to race prejudice against the Italians. Secretary Gresham usked Governor Waite unofficially for information to enable him to answer the Italian minister, and on the receipt of the Governor's answer Mr. Gresham wrote an explanation to the Baron in which he said that the attack was not due to race prejudice but to a feeling against cheap labor. Secretary Gresbam stated that living at Cripple Creek was somewhat higher than in the East, and that miners and other workmen expected better wages accordingly. The Americans took forcible measures of securing the end they desired, but did so with no feeling against the unpopular workmen as Italians. They would have acted in the same manner, the Steretary stated, had the cheap laborers been of any other nationality. Mr. Gresham expressed regret for the occurrence and hoped that it would not disturb the friendly relations between the two countries.

MR. CLEVELAND'S HEALTH,

Private Secretary Thurber Says Mr. Cleve-

land Has No Organic Disease. WASHINGTON, Aug. 23. - "There is no truth whatever in the report that the President is suffering from some organic disease," said Private Secretary Thurber. "When he left Washington it was under the advice of those who take a great personal interest in his welfare, simply because he wanted the recuperation which his arduous duties of the past six months had made necessary and to fit him to again assume the exacting cares of his official position." Mr. Thurber added that the rest that the President needs is simply that which any man, however vigorous, must require when overtaxed. Mr. Thurber received a letter yesterday from the President in which he stated that he was rapidly gaining strength and vigor.

Assistant Secretary Hamlin, who has just returned from a visit to the President at Buzzard's Bay, told a reporter that he looked "well, very well, indeed," and gave no indication of being ill. The House Coinage Committee.

WASHINGTON, Aug. 23,-The coinage committee of the House is pretty closely divided between the hard-money men and the advocates of free coinage. Mr. Hager of Iowa and Judge Kilgore of Texas will hold the balance of power, and their two votes would give a majority of one against free coinage. There was a good deal of currosity this morning as to the attitude of Mr. Hager, as he is a new member from a State where opinion on the coinage question is divided. The opinions of the other members of the committee are pretty well known from their action in the last Congress or the localities which they represent. Mr. Hager was perfectly frank in expressing his views. He said: "I shall not vote for either of the substitute propositions which are now before the House, and I shall not vote for unconditional repeal of the Sherman law. I am in favor of the wide use of silver by all nations, but I think the ratio should be higher than any of the substitutes proposed.'

He reports that a great deal of sickness prevails among the boomers encamped along the line. Many aredestitute and have not had a square meal in a month. Unless relief comes to them at once many more must die.

Anarchists Routed by Police.

NEW YORK, Aug. 23.-The Anarchists and policeman's locust came in violent contact again to-day. A meeting was in progress and the usual speeches were being made. Finally one of the speakers, working himself into a frenzy, shouted: "The police dare not come in here. 'If they show themselves in here the scenes at Waihalia will be repeated." It was just as he said that much that a roundsman appeared with ten men. The captain told them to clear the hall. They marched to the front and began operations. It was the liveliest incident that has occurred since the trouble on through the doorways, leaped through the windows and tore the clothes from each other in their efforts to get out. White Caps Drag a Woman from Her Be and Unmercifully Beat Her. Special to the Indianapo'is Journal.

COLUMBUS, Ind., Aug. 23.-At Waymansville, in the extreme southwestern part of this county, seven masked men, last night, entered the home of Andrew Schrader and took his wife to a woods near by and unmercifully whipped her. This evening she called on her physician and related what had taken place. She said the men had blacked faces and wore white caps made of paper. They knocked at her door and she supposed they were robbers. She had locked the door on retiring with her husband, but the parties opened the door and walked in. Her husband offered no resistance when they seized her. Her back presented a terrible appearance, being scarcely a spot on it that was not bruised. She says while being whipped she demanded why the White Caps mistreated her, and that they said it was because she was quarrelsome with her neighbors and those about her. She declares that she recognized two of the parties, and that at the coming term of court she will have them prosecuted. To this her husband objects. Funds will be raised to aid in bringing the guilty parties to justice.

RAY GANG KNOCKED OUT.

Shelbyville Council Rescinds the Electric Ratiroad Franchise. Special to the Indianapolis Journal.

SHELBYVILLE, Ind., Aug. 23 .- The City Council last night repealed the ordinance granting the franchise to the Shelbyville electric street railway. This ordinance was rushed through a Democratic Conneil in January, 1892. The company was composed of L. J. Hackney, judge of the Supreme Court; ex-Judge K. M. Hord; W. Scott Ray, editor of the Democrat; Ed Major, city elerk, who is an attache of the Democrat, and George Ray, of school-supply fame and brother of Scott. The company was reorganized a few months ago, Hackney retiring and Judge Hord taking the presidency. A contract was made with a New York firm which was to build the road and receive pay in bonds. A large block of bonds had been disposed of before the present financial stringency struck the country, when inquiries began to come in asking what could be realized on them. Various rumors are in circulation as to the amount of bonds put in circulation. The company declares that it will go on with the preparations and will put in the road regardless of any action of the Conneil. Some of the citizens fear that the city can be held as a party to the swindle in bonding the road. The Council passed the re-

The LaPorte Postmastership Making Much Trouble for Him.

Special to the Indianapolis Journal. LAPORTE, Ind., Aug. 23. - Since the election of Cleveland there has been a bitter fight waged here among the Democrats for the postmastership, the two leading candidates being S. E. Grover and N. T. McCormick. Congressman Conn has been worked in every conceivable way, and, in order to avoid disrupting the party here and to placate all factions, he had S. T. Kessler, of the LaPorte Argus, brought out. Instead of placating the Grover-Mc-Cormick factions, this only them all the more bitter, Kessler's partner. H. E. Wadsworth, held the office under Cleveland before, and this effort to get the Argus in again set the workers wild. Such a ruction was raised that Kessler this evening published his withdrawal from the race, and since Me-Cormick held the Union Mills postmastership under Cleveland it looks as if Grover had the inside track. Conn is being roundly "cussed" here by the opposing factions, who boldly assert that they will never support him again.

TWO NEW CASES.

Smallpox at Muncie Continues to Gather In Fresh Vistims.

Special to the Indianapolis Journal. MUNCIE, Ind., Aug. 23.—The smallpox epidemic remains about the same, still confined in the one district. There were two new cases reported to-day, those of Mrs. David Shoecroft, colored, and Mrs. Mary Sullivan. The condition of Mrs. Shoeeroft is very serious. Her family of five has been quarantined. The health officers are getting the district in better shape each day, and every person, young or old, in that locality is being vaccinated. Thousands were vaccipated to-day. The guard house is up and connected by telephone. Muncie physicians seem to be in a great muddle as to the genuineness of the alleged disease. Dr. Bunch, who was treating chicken pox cases in the infected district, still contends that it was chicken pox, and will not say that is smallpox in Muncie. there He and Dr. Cowing, the county health officer, have been having some heated discussions. Dr. Bunch took great exception to the quotation in this morning's Journal from Dr. Metcalf and replied with a card to-day, giving an account of all cases treated by him. Local Health Officer Cowing replied and severely arraigned Dr. Bunch. Dr. Henry Jameson, of Indianapolis, was called here and he pronounces the disease smallpox.

Precautions in This City. Indianapolis got a whiff of a smallpox case on Tuesday, but the patient was hustled out of town so fast, and such prompt measures for disinfection taken, that there is absolutely no danger to the people here. Yesterday the Board of Health ordered the Monon coach on which Mrs. Moles and little daughter, of Rensselaer, came to the city to be disinfected, and Inspector Burns and an assistant were sent out to the yards with sulphur and bichloride of mercury. The mercury was thoroughly sprayed throughout the coach, and when the sanitary officers get through with the coach it will have to be renovated. Mrs. Moles and daughter were sent on to Muncie.

FIGHTING WITH "PILLOWS"

"Dead Game Sports" Fooled with a Fake Prize Fight at Lanham's.

But There Came Near Being a Genuine Rio in the Ring-Given to Thompson in the Fifth Round.

A few of the sports who were put "on' went out to Lapham's roadhouse last night and witnessed a very "faky" fight. The fight was to have been between George Thompson, the "Kaneas City Kid," and Frank Dwyer, of Alexandria, Ind., but before the fight ended all the seconds and about half of the favored spectators who were admitted in the canvas-inclosed arena had taken a part in it in one way or another, and at one time all of them were in the ring in a tangled mass of struggling

The fight was kept very quiet, and not an officer was upon the scene to interfere just as it became interesting, and the fight went on with pummeling and punching till it was awarded to Dwyer upon a foul, after both had fouled more times than the referee and timekeepers, with the seconds combined, could note. The mill was to have begun at 11 o'clock, but there was as usual endless wrangling about the purse, the seconds and a multitude of other minor points, and it was nearly midnight before

the punching match commenced. Dwyer had ten pounds advantage of his opponent in weight, his weight being given at 121 pounds, while that of the "Kid" wa 117 pounds. In the corner occupied by Thompson Herb Hale presided as bottleholder and Johnnie Green acted as second Harry O'Connot seconded Dwyer and Al Newall acted as his bottle-bolder. There was considerable difficulty experienced in securing a referee, and finally Tommy Miller was taken from the corner occupied by the "Kansas City Kid," whom he was to second, and served as referee. The next important question to be settled was the selection of timekeepers, and Roy Bowman and Richard Henderson were chosen for this duty.

Referee Tommy Miller introduced the men to the small audience of select sports. and enjoined silence during the fight as there were several families residing within will be kicking on the joint.

a few miles of the place, and the noise would disturb them, and to-morrow they In the first round there was very little fighting; both men seemed to be afraid of his opponent.

In the second round it became a fight in earnest-real fighting without regard to fouls or anything else. As soon as the men stepped forward they clinched and began pummeling one another wherever round there was one or two vicious blows struck, and had it not been for the "pillows" upon the hands of the men some damage would have been done. As it was the blows were meffective, but the "Kid" had the best of it. When time was called for the third round

both men sprang to the center of the ring and started in for gore. They clinched as soon as they met and began pummeling one another. The referee called to them to break, but he called in vain, as they made no effort to break. It was very apparent that both men were riled. Dwyer threw the "Kid" to his knees and was punching him in the face. Referee Miller sprang to the center of the ring to force the men to break away. He grasped Dwyer by the shoulder, and the latter turned quickly and, catching the referee by the leg, turned him upon his shoulder. The whole crowd was in an uproar by this time. The seconds of each man eprang into the ring and took a part in the scuille in aid of their principal. The bottle holders saw "heaps of fun" spoiling, and also took a hand in it, then some half dozen or more spectators sprang into the ring, and they were all tumbling about the ring and there seemed to be a riot imminent. All the while the timekeepers were loudly calling time, but no attention was paid to them, and the free-for-all fight took precedence of everything else for a few minutes. The men were finally separated, and then the time keepers said time was not yet up. Dwyer's seconds urged him to "go get 'im." and Dwyer rushed to the center of the ring but didn't "get'im." because he did not come from his let 'em smoke at home.

corner. The timekeepers then called time. The fourth was another round of slugging and punching, without regard to fouls of prize-ring rules, in which the "Kid" had decidedly the best of it, and got first blood awarded him by the referee. The fifth round was a repetition of the two preceding it, with the exception of the riot in the third. The referee was compelled to break the men several times, and finally awarded the fight to the "Kid" upon a foul

by Dwyer. When the referee announced his decision one of Dwyer's backers sprang into the ring, gesticulating in a wild manner, and exclaimed in a voice like a fog horn, "! won't give up the fight. I won't give up the fight. Gentlemen (turning to the audience), the referee is betting on the coon and gives him the tight to win the money. The coon don't win the fight.' Notwithstanding the protestations of the man with the fog-horn voice the "coon' did win the fight. It was for a purse of \$100, the winner receiving \$75 and the loser \$25.

MR. STOWELL'S FATAL INJURIES.

An Elderly Gentleman Run Over by a Heavy Wagon on Washington Street.

M. A. Stowell, an aged gentleman, residing at No. 83 West Fifth street, was knocked down by a vehicle at the corner of Meridian and Washington streets yesterday noon and internally injured. The conveyance was a heavy carriage owned by an employe off the O'Conner grocery house on South Meridian street, and was driven by a colored man named Martin Bevins. After Stowell fell the wheels of the vehicle passed over his stomach and he was picked up in a half conscious condition and suffering intense pain from the injury. He was removed to his home by the city ambulance. The driver of the vehicle claims in defense of his act that be is blind in one eye and did not see the

Mayor Harrison was kept busy yesterday listening to inquiries as to whether the rumor that he was to marry Miss Annie Howard, a New Orleans belle, was true. The answer to each inquiry was an evasive laugh. Among the aldermen there is a strong hope that the tale may be true. They think if the Mayor should get married he would always be in such good humor that he would grantall their requests. One city father said he hoped the report was true, for if the Mayor were to take to bimself a bride she might be able to keep him home Monday nights and the aldermen
